_____ Fluctuation in vision _____ Redness _____ Film over vision _____ Burning

_____ Tired Eyes _____ Watery Eyes _____ Feeling of sand or grit in eye(s)

CASTLEMAN EYE CENTER
PATIENT FINANCIAL POLICY

Thank you for choosing Castleman Eye Center. We are committed to providing you with excellent service in every area including billing and insurance claims filing. Please read and sign our Financial Policy below:

Our practice participates in many Vision and Medical insurance plans. If your plan does not cover services provided by our physicians, payment in full is expected at the time of your visit. We accept cash, checks, VISA, MasterCard, and Discover.
Please be sure to provide us with your most current insurance card(s) at each visit.
We cannot properly file your insurance claim if we do not have accurate insurance information in your account. If you do not have your insurance card with you we will be happy to see you but payment in full will be due at the time of service. You must bring your insurance card to us in order for the claim to be filed. Once payment has been received from the insurance company, we will gladly refund the patient payment less any applicable co-pays or deductibles.

All payments are required at the time services are rendered. If, for some reason you are not prepared and need us to bill you, there is an additional $10 billing fee. We do offer financing through Care Credit and accept VISA, Mastercard, American Express and Discover. ALL DEDUCTIBLES ARE COLLECTED PRIOR TO SURGERY AND/OR AT TIME OF SERVICE.

Eye Examinations have two portions, the eye exam and the refraction. The refraction is the measurement taken to determine if there is a need for glasses and if so, your glasses prescription. Refractions may be done for routine eye exams or medical exams. **Most insurance plans, including Medicare do not pay for refractions. You will be asked to pay for the refraction at the time of your visit.**

During the course of your exam, the doctor may order special diagnostic tests that are not included in the exam fee. These tests will be billed to your medical insurance and you will be responsible for paying any deductible/copay in advance. We will do our best to estimate what your cost will be. However, if the amount is not correct based on the response from your insurance company, we will either bill you the difference or refund the overpayment.

Many insurance plans require a referral/authorization for office visits. You will need to obtain this referral/authorization from your primary care physician **prior** to being seen in our office. If you are having surgery we will assist in getting pre-certification or prior approval for your procedure. Please keep in mind that most insurance plans have deductibles, co-payments, or both, associated with surgery, and you will be responsible for payment of these fees prior to surgery. **Please note, if you are scheduled for surgery there will be 3 separate fees/claims filed. One the surgeon, one for anesthesia and another for the operating room/facility. You may contact the hospital or surgery center for specific information regarding their fees. We suggest that you review your insurance plan prior to visiting our office, so you will be familiar with your insurance plan guidelines and requirements.**

Thank you, and let us know if we can be of further assistance.

I certify that the information given by me in applying for payment under my insurance contract is correct. **I authorize any holder of my personal information, whether medical or otherwise, to release to any third party payers (including Medicare, Medicaid, and other parties) information needed to process claims for health care benefits.** I request that payment of authorized health care benefits be paid and I assign the benefits payable for physician services to the physician or organization furnishing the services. I authorize such physician or organization to submit a claim to my health insurance carrier or any other third party payer including Medicare and Medicaid on my behalf. I request payment of benefits under Title XVIII (Medicare) and XIX (Medicaid) of the Social Security Act, to **Castleman Eye Center**. I understand that I am financially responsible for charges not covered by the insurance company, and I hereby guarantee timely payment in full of any such charges.

By signing below, you are acknowledging that you have read and fully understand our Financial Policy.

REFRACTION FEE WITH OPTOMAP FORM

Patient Name: ___________________________________

A refraction is the process of measuring your eyes. The results of this test may also be used to determine if you have a medical diagnosis for decreased vision or if glasses are needed.

It is an essential part of a complete eye examination. There are some eye conditions which require the doctor to make the refraction measurements, even if you don't end up changing your eyeglasses. The purpose of the refraction can be to assist the doctor in diagnosing your eye condition.

How is the refraction paid and who pays for it?

- Some medical insurance plans will pay for the refraction, although **most** medical insurance plans, (including Medicare) **do not**. The $45 refraction fee is collected from the patient.

- This is a once a year fee to the patient, even if the refraction is performed more than once per year.

- Some patients have a separate “Vision Plan” insurance that pay for refractions and periodic “routine eye exams”. These plans can’t be used if your visit is for any medical eye condition (glaucoma, cataract, dry eyes, macular degeneration, diabetes, etc…)

- This fee also includes a technologically advanced retina scan of both eyes, known as the Optomap. This new technology allows us to scan and see areas inside the eye that otherwise cannot be seen during the exam by the doctor. This allows the doctor to look for diseases & monitor the health of your eyes in ways that were never possible before now. This is a screening test, not covered by your insurance.
